## MINIMALISM

LIR line of furniture is characterized by clear minimalistic lines softened with curved edges which are achieved by incising notches in the material

## ORGANIC FORM

Organic form and the wit of incision details are what makes these products very striking, and causes the effect of surprise in the eye of the observer.

## ECO FRIENDLY

These are environmentally friendly products compatible with the requirements of sustainable development of the furniture industry. They are made from natural recyclable materials.

## RECYCLED

Basically it is plywood panel coated with linoleum on both sides. Linoleum is made of natural and recycled components of linseed oil, wood flour and natural pigments, it has bacteriostatic and antistatic properties, and is resistant to high temperatures

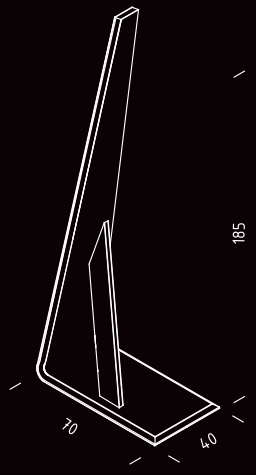

## EASY TO CLEAN

Final surface finishing is performed by a special water-based coating which provides additional surface protection and facilitates maintenance.
