## Pop-up kitchen **PIA**

...is a unique type of furniture in the form of a well designed cabinet that acts like a fully functional kitchen.

PIA's pop up design ensures that in the short time that it takes to open its doors it can provide a well equipped ready to go kitchen with everything you need within the hand's reach.

It comes with a dish washer, TV, refrigerator, and ample shelf and cabinet space that a modern kitchen requires.

before

with PIA

The PIA can help save space by eliminating the need for a separate room to be used for kitchen space. At least 5 m<sup>2</sup> of living space can be saved in this way; the pictures above show some examples on how this can be achieved.

PIA comes in 6 variants to suit the needs of any space: **Nova**, **Alta**, **Petite**, **Bond**, **Viss L**, and **Viss M** variants as well as many color options are available.

**PIA** Nova

## dimensions

closed 186 x 82 x 200 cm

open 374 x 66 x 200 cm

## doors

- 15 or 2 cm deep
- place for 40" TV
- place for 32" TV

# MOVI

Enables the transformation of a bedroom into a living room and kitchen by use of a movable wall section.

This makes it ideal for small apartments, offering functionality of much larger living spaces. Ideal for cities high real estate prices.

The wall section moves via a motorized wheel system. Motion is quiet, and can be operated by remote control.

A safety feature prevents the system from closing - when an obstacle is encountered, the wall section stops and reverses a little.

# CUBO

## system of furniture

"Cubo" consists of two armchairs and a table. Armchairs have a width of 65 cm, depth 77 cm, height 90 cm, back is 65 cm tall, and the seat is 55 cm deep. The table is a quadrant 65 x 65 cm wide and deep, and 42 cm high. Compound elements form a rectangular shape 135 cm high.

Because of their modularity, elements can be combined with each other and built on, and thus create their own composition of spaces for different purposes.
